Portfolio

## Personal Profile

---

All my life I have been passionate about the arts and spent most of my life studying music as a performer and an educator in various parts of the world. In the past I have been very intrigued by computers and the art of coding. I always have been fascinated with how the internet works and decided to start learning to code on my own.

Currently I have been blessed to be part of a Digital Skills Bootcamp at Just IT. Here, I have been learning in a greater depth different programming languages such as HTML, JavaScript, CSS, and back-end programming languages such as Python and MySQL where I have been working on my portfolio and a few projects.

My aim now is to land a job as a junior developer to keep on gaining more skills in this fascinating world to me and to keep on building my portfolio as a front-end developer.

## Education and IT Training

---

Jan 2023 - Present

**Just IT Training Ltd, London**

**Digital Skills Bootcamp: Software Development**

A twelve-week intensive bootcamp covering the fundamentals of Web and Software development.

Feb-13-Jul-13

## IT Skills

---

**Software Development Skills: Python and MySQL**

**Web Technology: HTML5, CSS3 and JavaScript**

**Core Programming Languages: JavaScript and Python**

**Projects:**

## Employment History

---

**Sep/20- Present IGD MUSIC, Manchester UK  
Director**

- As the director, I had to oversee all aspects of the business, from marketing to delivering the product and making sure that the customers, in this case the students were gaining all the skills and progress expected.
- I love people, so interacting with parents, students, schools, and other recipient of my product was always a pleasure.
- Working as a Self-employer is not easy as you always must go the extra-mile to accomplish your goals and meet your quota. This has helped me tremendously in developing my life-skills and appreciate each opportunity to excel in all areas of my life.
- Working for myself has taught me how to solve problems in every step of the way and as I have been learning in coding, is an unbelievably valuable skill to have.

**Mar/20-Sept/20 Manchester High School PRU UNIT – Manchester UK  
Teacher Assistant**

- This was an extremely rewarding but also a particularly challenging roll because I had to deal with all kinds of situations given the particularity of the students in that school.
- I had to be always aware of my surroundings because some of the students were very violent and looked for ways to escape the school.
- Some of the students there presented a wide variety of educational challenges in which I had to offer my advice and empathy helping them overcome their different challenges in a daily basis.
- I had to support students that were bullied constantly and help them build their own self-confidence and steam.
- I also reported back to my superior (head teacher) all that I saw regarding the challenges and difficulties every student under my supervision had.

**Feb/19-Feb/19 Nudo Sushi - UK  
Sushi assistant cook**

- I enjoyed making all distinct kinds of sushi every day.
  - Working a night shift, I had to be rested and ready to push myself as we had to work with different ingredients and machinery.
  - Always having an impeccable relationship with my Camilo Ochoa-workers and my manager to ensure a smooth operation during the shift.
  - Sometimes problems arose in the form of broken machinery or delayed in the food delivery in which I had to help the manager solve in the most efficient ways.
-

## **Interests and Achievements**

---

### **Computing:**

I am also a music producer so I work with different pieces of software such as Logic and ProTools to produce.

I have been involved in different music productions through my music career and I cannot wait to start implementing this new knowledge with my music skills to make new endeavours.

I love reading and playing music, whether it is with my trumpet, on the piano or making new sounds with my percussion.

### **Hobbies:**

I am an outdoor person who loves and practices sports such as football, basketball, tennis, horseback riding and loves to spend time with my family cooking South American barbecues.
